Animal Rights

Child Labour

Child Soldiers

Poverty

Terrorism

Human Trafficking

Genocide (Darfur)

Corrupt Governments

Drug Trade/Drug Cartels

Environmental Issues

Slavery (modern)

Gay Rights

Human Rights Violations

Other

Task:

Group Power Point Presentation: You are required in your group to prepare a seminar presentation about one the Global Issues listed above. Your group will present their seminar for 15-20 minutes in front of the class. Your seminar presentation **MUST** answer the following questions about your Global Issue:

1. What is the issue?
2. Where is the issue taking place in the world?
3. Who does this issue effect?
4. What are the causes of this issue?
5. What are some solutions to solve this issue?
6. What is being done already to help solve this issue?
7. What can **we** do to help?

Visual Components:

Each seminar presentation must have 2 (two) visual components.

1. You need to create, and share with the class during your presentation, a **Poster/Bristol Board/T-shirt/Other** that highlight an important point regarding your Global Issue (something in detail, specific person, maps/statistics, etc.). This item would be used to enhance your power point presentation.
2. You need to create a **Pamphlet** that can be used to inform members of the class and community who were not present for your seminar presentation. The pamphlet will be something that could be put into mailboxes as a way to gain public awareness for your Global Issue. Your pamphlet should be informative, easy to read, visually appealing and clearly states how people can help (offer links to websites, organizations, books, etc.).

Please refer to the Oral Presentation and Pamphlet Rubrics.
