

Girl Interrupted Video Response

Choose one character and prove that they either do or don't have a psychological disorder with specific examples from the video.

Please respond to one of the following:

1. Is Lisa a psychopath?

2. Does Daisy have an eating disorder?

3. Does Suzanna have borderline personality disorder?

Please refer to the paragraph marking rubric.

Social Science Paragraph Marking Scheme

Name: _____

Paragraph Topic: _____

Topic Sentence (Thinking/Inquiry)

| 0 | .5 | 1 | 1.5 | 2 |
|---------------------------|---|---|--|--|
| No Introductory Statement | Poor introductory sentence – does not relate to topic | Weak introductory statement, few major ideas outlined | Good introductory statement, most major ideas outlined | Superior introductory statement, clearly outlines all major ideas in paragraph |

Body (Knowledge/Understanding)

| 0 | 1 | 2 | 3 | 4 |
|-------------------------|---|---|--|---|
| No related proof points | Proof points offered, no appropriate factual evidence <i>no comments</i> | All or most major proof points made and not all are supported with appropriate <i>comments</i> | Most major proof points made and supported with appropriate <i>Comments</i> | All major proof points made and supported with outstanding <i>Comments</i> |

Concluding Sentence/Clincher (Thinking/Inquiry)

| 0 | .5 | 1 | 1.5 | 2 |
|---------------------|--|--|---|--|
| No clincher evident | Poor clinching statement, does not reinforce topic | Weak clinching statement, few major ideas reinforced | Good concluding sentence, most major ideas reinforced | Superior concluding statement, clearly reinforced all major themes and ideas |

Grammar and Spelling (Communication)

| 0 | .5 | 1 | 1.5 | 2 |
|-----------------------------|--|---|---|-------------------------------|
| No evidence of proofreading | Too many spelling or grammar errors for this level | Some spelling and grammar errors – not all interfere with meaning | Few spelling and grammar errors which do not interfere with meaning | No spelling or grammar errors |
